### **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 1-20 are allowed.

2. The following is an examiner's statement of reasons for allowance:

#### **Claims 1-12**

None of the prior art of record teaches or suggests an electrophotographic, which includes a plurality of modules, comprising a handle having first and second ends attached to a first module, said handle having a first bearing located near the first end of the handle and a second bearing located near the second end of the handle, a first pin and a second pin extending from a module other than the first module; wherein the first and second pins are positioned so that the first pin extends through the first bearing in the handle and the second pin extends through the second bearing in the handle to keep the first module aligned with the at least one other module when the handle is in a first position.

#### Claims 13-20

None of the prior art of record teaches or suggests a photoreceptor module comprising a rotatable handle wherein when the handle is in a first position it engages at least one other module to maintain proper spacing between the at least one other module and the photoreceptor module and when the handle is in a second position, the tension roller is retracted so that the photoreceptor belt is easily removed.
